

# Imprivata learning center

All customers who purchase an Imprivata Education Services subscription or a Managed Services package get access to our Imprivata Learning Center which contains course materials and eLearning for every Imprivata solution.

Often, it's considered to be similar to a support contract or insurance plan and only used out of necessity. But it offers so much more value when it is used proactively, and often. When administrators access readily available educational tools to help streamline their organization's use of Imprivata solutions, the solutions are better managed, which increases ROI.

## An investment in learning and education

	<b>What is the Imprivata Learning Center?</b> An online platform for learning about administering Imprivata solutions
	<b>Who can use it?</b> Licensed individuals the organization designates, anytime, anywhere, online
	<b>What's included?</b> All product course materials, eLearning, videos, and more

## Benefits of the Imprivata learning center subscription

- Dynamic 24X7 access to resources
- Blended, continuous learning
- Scenario-based learning paths
- Professional Development Trainings

## What your subscription gets you

By leveraging your Imprivata Learning Center subscription, you can make the most of your investment in Imprivata solutions by empowering administrators with all of the knowledge they need to be successful.

Benefits include:

- The ability to consume eLearning anywhere, anytime
- Access to the newest product features overviews, tutorials, and micro-learning options
- The choice to work through an entire curriculum, or select individual courses
- Single sign-on through the Imprivata Support and Learning Center, connecting you to the Imprivata community, knowledge base, and additional resources

Imprivata is the digital identity company for mission- and life-critical industries, redefining how organizations solve complex workflow, security, and compliance challenges with solutions that protect critical data and applications without workflow disruption. Its platform of interoperable identity, authentication, and access management solutions enables organizations in over 45 countries to fully manage and secure all enterprise and third-party digital identities by establishing trust between people, technology, and information.
