

MAXIMIZE YOUR ONESIGN® INVESTMENT

TRAINING AND CERTIFICATION - NORTH AMERICA

Imprivata offers OneSign Training and Certification courses to help maximize your OneSign investment. These courses provide students with the knowledge they need to get the most benefit from Imprivata's solutions and to ensure a rapid and effective deployment strategy. Training includes:

- Lecture-based training
- Instructor demonstrations
- Participant guide
- Hands-on exercises
- Quizzes and tests for certification

By participating in a session students can:

- React with confidence to changes in their application environment
- Improve ability to support installation without little or no external service expenses
- Be introduced to new product features that will benefit the organization.

INSTRUCTOR LED TRAINING OPTIONS

2-Day

For advanced users who thoroughly understand user importing and management, authentication methods, policies, reporting and auditing. These sections are not included in the full length course. Students wishing to attend the 2-day class will need to pass a pre-requisite test to ensure they are qualified for the accelerated class. Once on-site, students will gain exposure to:

- Application Profiling Concepts
- Testing and Troubleshooting Application Profiles
- Deployment Strategies for Application Profiles
- Advanced Application Techniques
- The cost of the 2-day Certification Course is \$2,500 USD

4-Day

- Includes several hands-on workshops, demos and a participant guide.
- Optional 5th day for taking the online certification exam at the training facility. If you choose not to take the exam on the 5th day, it must be completed within 2 weeks of the original classroom training. Certificate is included in the cost of the course.
- Topics include:
 - User importing and management
 - Authentication methods and policies
 - Reporting and alerting
 - Application Profiling Concepts
 - Testing, Troubleshooting, and Deployment Strategies for Application Profiles
 - Advanced Application Techniques
- The cost of the 4-day Certification Course is \$3,000 USD

See other side for 2-day and 4-day course outlines...
