

# Top reasons why identity governance matters

## for Chief Information Officers

“By partnering with Imprivata, we can keep track of employees in a very systematic way, leveraging technology rather than using manual processes.”

- Oscar Perez,  
VP of IT,  
Memorial Healthcare System

Many healthcare organizations rely on manual processes or internally developed applications to onboard users and manage their entitlements – an inefficient, costly, and risky proposition that diverts valuable IT resources from more strategic tasks. It can take days or even weeks to give new users access to critical applications and IT systems.

Forward-looking CIOs are turning to healthcare-specific solutions to automate identity governance functions, reduce operating expenses, and free up staff to focus on business-critical tasks.

### Your solution: Imprivata Identity Governance

Imprivata Identity Governance is the leading identity governance and compliance management solution in healthcare, providing fast, secure role-based access to IT systems and applications. The solution automates identity and risk management processes, enables compliance with internal and regulatory guidelines, and allows clinicians to focus on quality patient care on day one.

Identity governance provides unique benefits for each healthcare technology leader.

- Chief Information Security Officer
- Chief Medical Information Officer
- Chief Nursing Information Officer
- IT Director

## Proven benefits

Imprivata Identity Governance can help your organization:

- Reduce IT operations expense and complexity by eliminating manually intensive, time-consuming, and error-prone administrative and auditing processes
- Reduce software licensing expenses by managing active users and their access rights
- Mitigate risk by aligning access privileges with roles, identifying mismatched entitlements and orphaned accounts, and preventing PHI leakage
- Protect and extend previous investments via tight integration with Imprivata OneSign® and Imprivata Confirm ID® – the industry’s leading authentication platform
- Ensure clinical stakeholders and their teams have all the tools they need to do their jobs from day one

## Next steps

Seeing is believing. Let Imprivata demonstrate the proven benefits of Imprivata Identity Governance. See how automating identity and access management processes can help your organization streamline operations.
