

# Imprivata managed supervised enrollment training program

**Maximum participants:** Up to eight participants.

**Audience:** Imprivata Administrator, Clinician/Provider Power-User, Enrollment Supervisor

**Format:** Hybrid delivery of eLearning, online training, and remote services.

**Length:** 2 hours—virtual instruction and 4 hours—remote Implementation Engineers services.

## Overview

This remote, engineer-led program provides participants with the knowledge they need to make educated choices to leverage their Imprivata solution in preparing their providers to remotely enroll in ePrescribing Controlled Substances (EPCS). You will validate technologies in place, deploy appropriate policies, and configure authentication devices. In addition, testing your video conferencing environments for the enrollment population. Lastly, train Enrollment Supervisors staff to seamlessly enroll compliant authentication modalities remotely for EPCS.

## Agenda

Topics	
<ul style="list-style-type: none"><li>• Review and test Imprivata environment</li><li>• Configure and deploy policies</li><li>• Review and test video conferencing environment</li></ul>	<ul style="list-style-type: none"><li>• Validate two-factor authentication devices</li><li>• Configure virtual environment</li><li>• Supervised enrollment testing and validation</li><li>• Enrollment Reporting</li></ul>

## Imprivata Learning Center

As part of the Imprivata blended learning approach all registered class participants are granted access to the Imprivata Learning Center for one year.
