

Imprivata Proximity Card and Fingerprint Readers

Complete your No Click Access® Solution with Imprivata Authentication Devices

Benefits

- Fully tested and certified for Imprivata OneSign compatibility
- Extended warranty provides two-year coverage
- Delivered by the same expert team that supports all Imprivata OneSign solutions
- Expedited replacement service in the event of hardware issues
- Programmable reader helps hospitals adapt to changing requirements

The Total Authentication Solution

Imprivata Proximity Card and Fingerprint Readers are the final piece in Imprivata OneSign® Authentication Management and Single Sign-On solutions. Imprivata Readers are the only readers tested, certified and supported by Imprivata.

For hospital IT teams, Imprivata Readers reduce complexity and simplify management by creating a single source for purchase, support and maintenance. Imprivata Proximity Card Readers support a broad range of different card types and provide the ability to support multiple card types on a single reader. Imprivata Fingerprint readers are available in a model that complies with the Federal Information Processing Standard (FIPS) protocol, meeting the requirements for conducting Electronic Prescribing for Controlled Substances (EPCS).

With the growing complexities and risks in healthcare IT environments, Imprivata Readers round out Imprivata OneSign solutions, creating a simpler, safer and smarter way forward.

Convenience, Performance, Protection and Flexibility

Imprivata Proximity Card and Fingerprint Readers offer a range of features and benefits for both IT professionals and care providers.

- **Certified and Supported:** Imprivata Readers have been tested and certified with Imprivata OneSign. Technical support is provided directly by Imprivata and delivered by the same team that stands behind all Imprivata OneSign solutions. This consolidated support gives customers a single point of contact and accountability for resolution of any technical issues that arise with Imprivata Readers and the overall Imprivata OneSign solution.
- **Extended warranties:** Imprivata provides two-year coverage as the standard, baseline warranty protection for Imprivata Readers. This is double the coverage typically offered in the industry, translating into increased operational assurance for Imprivata OneSign implementations.

Imprivata Readers provide coverage for the most popular and prevalent proximity cards in use today, and for both basic and advanced fingerprint-reading applications.

- **Expedited replacement:** If an issue arises and a device needs to be swapped out, Imprivata includes an expedited replacement service as standard with all Imprivata Readers. This fast, hassle-free replacement process minimizes workflow disruptions and frustration for customers.
- **Device flexibility:** The Imprivata IMP-80 Reader is programmable and can accommodate two card types simultaneously. The IMP-80 is an ideal choice for hospitals that anticipate organizational changes, such as mergers or acquisitions, or infrastructure changes with their building access systems.
- **Regulatory compliance:** The Imprivata IMP-1C Reader complies with the FIPS protocol. It can accommodate hospitals that have clinical workflows requiring stronger authentication processes for activities such as EPCS.

Support for Proximity Card Types and Fingerprint Modalities

Imprivata Readers provide coverage for the most popular and prevalent proximity cards in use today, and for both basic and advanced fingerprint-reading applications.

- Imprivata Proximity Card Readers:
 - The IMP-60 supports HID Proximity Cards.
 - The IMP-75 supports HID iCLASS and Mifare cards.
 - The IMP-80 is programmable and able to support two different card types/technologies simultaneously across 125 kHz proximity cards and 13.56MHz contactless cards. This Imprivata Reader supports a broad range of cards and technologies. For an updated list, please contact Imprivata.
- Imprivata Fingerprint Readers:
 - The IMP-1C (UPEK/Digital Persona TCS1C) is FIPS 201/FICAM certified and meets the DEA's requirements for E-Prescribing of Controlled Substances.
 - The Model IMP-1S provides fingerprint reading for environments that do not require FIPS-compliant readers.

End Point Device Support

Imprivata Proximity Card Readers are supported on all Windows desktops and by the following manufacturers' thin and zero client devices.

Vendor	Supported Devices	Type
	P20 (Tera-1); P25/P45 (Tera-2)	Teradici
	Xenith, Xenith Pro, Xenith 2	Xenith
	C10LE, R10L, S10, T10, V10LE	ThinOS
	WES 7: Z90D7, D90D7, X90M7, Z90S7, Z90DE7, R90L7, C90LE7, ...	Windows
	WES 2009: Z90DW, D90DW, X90MW, Z90SW, R90LW, C90LW, ...	
	T310 (Tera-2)	Teradici
	t510/t610/t5570/t5740/t5745/	Windows
	NNC220, NC220P, NC190-1	Teradici
	UD3/UD5/UD9 Series	Windows
	ThinOX 8.5 models	Linux
	Ino/Atomino/Ultra/Compact	Windows
	n400, n500, n500W	Linux

Imprivata Fingerprint Readers also are supported on all Windows desktops and by the following manufacturers' thin and zero client devices.

Vendor	Supported Devices	Type
	WES 7: Z90D7, D90D7, X90M7, Z90S7, Z90DE7, R90L7, C90LE7, ...	Windows
	WES 2009: Z90DW, D90DW, X90MW, Z90SW, R90LW, C90LW, ...	
	t510/t610/t5570/t5740/t5745/	Windows
	UD3/UD5/UD9 Series	Windows
	Ino/Atomino/Ultra/Compact	Windows

About Imprivata

Imprivata is a leading provider of authentication and access management solutions for the healthcare industry. Imprivata's single sign-on, authentication management and secure communications solutions enable fast, secure and more efficient access to healthcare information technology systems to address multiple security challenges and improve provider productivity for better focus on patient care.

Over 2 million care providers in more than 1,000 healthcare organizations worldwide rely on Imprivata solutions. Imprivata is the category leader in the 2012 and 2013 Best in KLAS Software & Services Report for SSO, and SSO market share leader according to HIMSS Analytics.
