

Extend your team with managed privacy services, a dedicated partner in privacy

Imprivata FairWarning Managed Privacy Services is a solution that acts as an extension of your team to manage your patient privacy monitoring platform and help you with third party audits and forensic investigations, giving you valuable time back in your day.

Your dedicated partner in privacy, Imprivata FairWarning analysts are experts in compliance, security, and the Patient Privacy Intelligence platform. We help care providers of all sizes reduce the stress and workload associated with investigating and following up on potential incidents and ensure you remain compliant with HIPAA regulations.

In addition to managing your privacy monitoring program, we share communication plans and materials to help you educate your staff about the importance of protecting patient health information, enabling you to create a culture of privacy and compliance.

Benefits

As the proven leader in healthcare data privacy, Imprivata FairWarning gives you the tools you need to comply with confidence, protect patient data, and even prevent violations with a culture of privacy.

**SAVE TIME AND
REDUCE STRESS.**

**IMPROVE YOUR
PRIVACY POSTURE
AND REDUCE RISK.**

**CONSISTENTLY APPLY
BEST PRACTICES
ACROSS FACILITIES.**

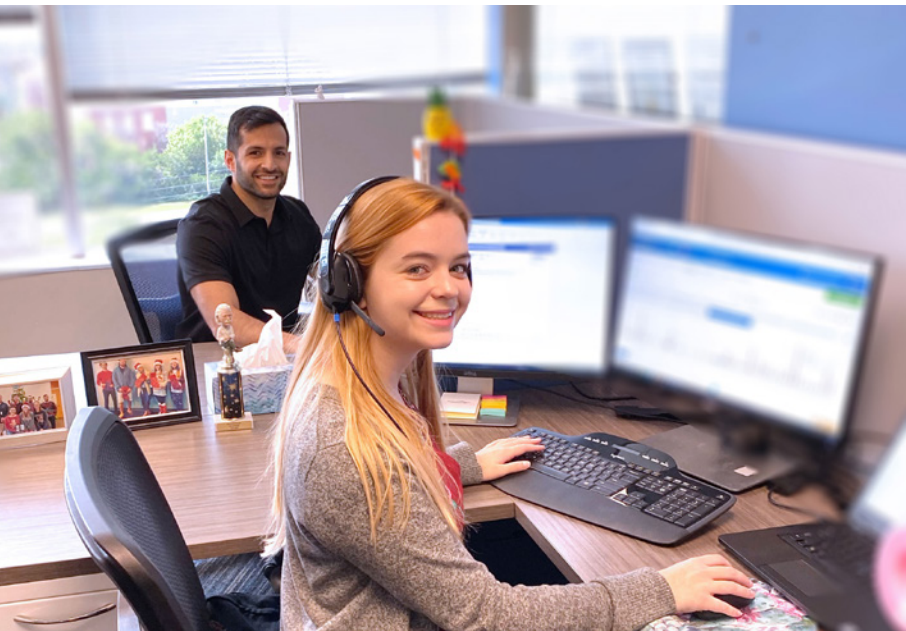

When you partner with Imprivata FairWarning Managed Privacy Services, you benefit from our unparalleled scale and unmatched experience, which we put to use managing your privacy and compliance program with our Imprivata FairWarning Patient Privacy Intelligence platform.

“ The benefits with Imprivata FairWarning are the reduction in the number of unauthorized accesses, reduced time to resolution on potential violations, and we’ve been able to comply thoroughly with regulatory requirements without having to hire a bunch of people, which is significant given limited resources. ”

**System Privacy Officer,
St. Luke’s Health System**

Key capabilities of Our Managed Privacy Services team helps by:

- Setting up your monitoring program for success
- Delivering customized education and communication materials
- Performing daily application security monitoring
- Reviewing important topics during regular meetings
- Creating and documenting investigations and incidents
- Building and reviewing compliance and governance reporting
- Providing support for high profile or threat monitoring and other ad-hoc requests
- Ensuring audit readiness

“ Imprivata FairWarning gives us a 360-degree understanding of potential risks and the ability to build privacy rules around them [...] Equally important is that we now have the technology, policies and processes to effectively handle the full lifecycle of a breach. ”
