

Imprivata GroundControl remote program

Maximum participants: Per individual.

Audience: Per person; IT Project Owner, MDM Administrator, Mobile Device Administrator.

Required pre-work: Completion of approximately 30 minutes of online self-paced training.

Format: Online instructor-led training.

Length: Two, two-hour sessions (Four hours total).

Overview

This remote, instructor-led program provides participants with the knowledge they need to make educated choices about how to configure and maintain GroundControl to simplify and secure shared device environments. You will learn automated provisioning, workflows, attributes, and asset management specializing in the Apple iPhone and iPad platform. It is designed to be delivered virtually in four hours (two-hour sessions).

Attendees who successfully complete all course requirements including passing the certification exam will earn Imprivata GroundControl Certified Administrator status, valid for one year.

Agenda

Session One (2 hours)	Session Two (2 hours)
<ul style="list-style-type: none">• Introduction and Overview• Admin console and Launchpads• Provisioning• Workflows and automation	<ul style="list-style-type: none">• Devices and asset management• Administration• Secure device checkout• Logs and troubleshooting

Imprivata Learning Center

As part of the Imprivata blended learning approach all registered class participants are granted access to the Imprivata Learning Center consisting of self-paced eLearning courses for one year.
