

Imprivata Mobile

The complete Aviation solution for shared mobile devices

Aviation companies are implementing mobile devices to increase operational efficiency, boost mobile security, and improve customer experience.

Imprivata Mobile is a comprehensive end-to-end solution that helps organizations automate device provisioning, secure device checkout, track assets across locations, deliver fast, secure access to all mobile devices, and automate the sign-on into multiple applications.

Our best-in-class solution helps customers unlock the full potential of shared mobile devices.

With Imprivata Mobile, you can

- **Provision and image** your entire mobile resource base at any time, including in-flight entertainment devices and digital menus
- **Enable RAPID check out** that personalizes job order and user information
- **Automate user sign-on** to the applications needed in the user's workflow
- **Digitally swipe and reprovision** devices at the end of each shift
- Fully support applications that need to **identify and pinpoint item location**
- **Protect sensitive data and PII** (Personally Identifiable Information)

Additionally, **through integrations with almost every MDM (Mobile Device Management) provider**, Imprivata Mobile works side by side with your MDM solution for Device Enrollment Programs (DEP).
