

The Nexus:

Seamlessly connect Imprivata Vendor Privileged Access Management (formerly SecureLink Enterprise Access) and Imprivata Customer Privileged Access Management (formerly SecureLink Customer Connect)

The Nexus is an included solution for both Imprivata Vendor Privileged Access Management (formerly SecureLink Enterprise Access) and Imprivata Customer Privileged Access Management (formerly SecureLink Customer Connect) customers. It makes enabling and managing access even easier, while providing benefits to both vendors and customers.

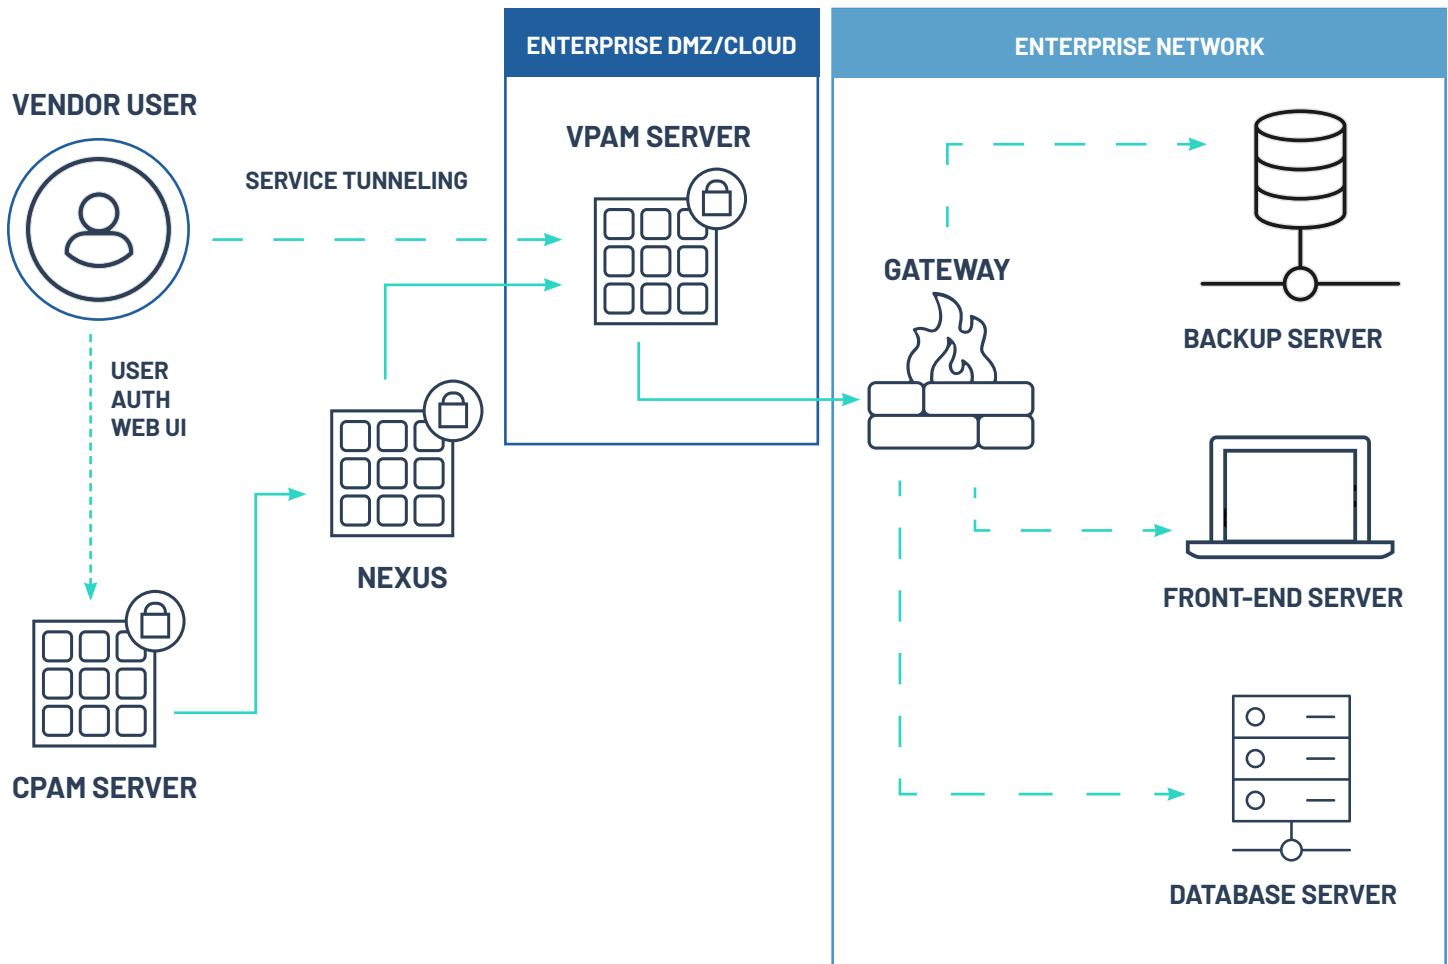

The Nexus brokers a connection between an Imprivata Customer Privileged Access Management (CPAM) server and an Imprivata Vendor Privileged Access Management (VPAM) server. With the Nexus, neither VPAM customers nor CPAM customers have to compromise on how they make and allow remote connections through their own servers.

Benefits for enterprises that own VPAM	Benefits for vendors who own CPAM
<ul style="list-style-type: none">• Shift the management of individual vendor rep accounts to the vendor, while retaining full control over when and what a vendor has access to within your network.• Includes hosts, ports, and application management, as well as required access approvals and the full audit trail.	<ul style="list-style-type: none">• Maintain the authentication of your own users, management of user groups, and your own reporting on your CPAM server.
<ul style="list-style-type: none">• Experience quicker resolution of your issues due to vendors continuing to log in and gain rapid access through their own CPAM server.	<ul style="list-style-type: none">• Access VPAM customers through your own CPAM connection without needing to install Gatekeepers.• You maintain a single, efficient method to access all customers, rather than losing time having to natively log in to each VPAM server separately.
<ul style="list-style-type: none">• Easily onboard Nexus vendors to your environment with immediate connectivity.	<ul style="list-style-type: none">• Easily onboard Nexus customers to your environment with immediate connectivity.

Over 44,000 organizations utilizing the connectivity from these solutions

Over 12,000 healthcare organizations utilizing the connectivity from these solutions

Connectivity via the Nexus

Whether you're an enterprise or a third-party vendor, network protection is imperative, and choosing the most secure remote access platform is critical to the success of your organization.

Already a VPAM or CPAM customer? Contact the Imprivata [Customer Success](#) Team to set up your first Nexus connection.

Not yet a customer but interested in taking advantage of the benefits of the Nexus? [Request a demo.](#)

Imprivata is the digital identity company for mission- and life-critical industries, redefining how organizations solve complex workflow, security, and compliance challenges with solutions that protect critical data and applications without workflow disruption. Its platform of interoperable identity, authentication, and access management solutions enables organizations in over 45 countries to fully manage and secure all enterprise and third-party digital identities by establishing trust between people, technology, and information.
