

# The Imprivata Education Exchange (EdEx)

## Resources to help you get the most out of your Imprivata experience

The Imprivata Education Exchange (EdEx) are no-cost office hours in which we make our experts in Education Services available to you. During these sessions, you can receive training on using Imprivata solutions, speak with our training team, and connect with other Imprivata customers to build a user community.

We'll deliver these events each month across all solutions. We'll provide insights and best practices. You'll have the ability to learn a variety of skills to make you more successful in your day-to-day interactions with Imprivata.

Our topics will vary based on what you need – we want you to have a voice on what you want to learn. Please ask questions when you're in the Education Exchange – we encourage you to seek guidance and meet others in the Imprivata community!
