

The ROI of doing shared mobile right

The \$1.1M advantage over 1:1

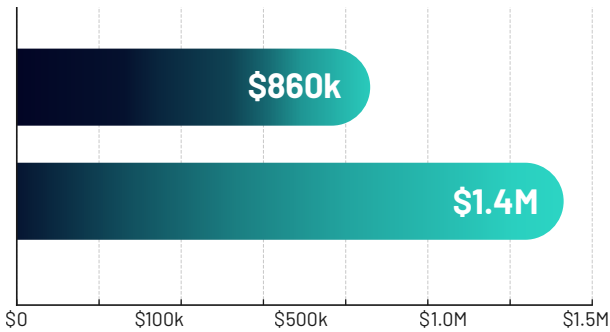

Cost reducer

Organizations save **\$1.1 million annually** by choosing shared mobile devices over single-user devices.

Savings multiplier

Organizations with a fully implemented shared-mobile policy report **63% greater ROI** than those without, for an average annual savings of **\$1.4M** vs. **\$860K**.

Less loss & downtime = greater ROI and better care

of shared devices are lost annually.

Lost/missing devices trigger care team delays – an average of **3 hours per week per device**.

The Imprivata difference:

Mackenzie Health **reduced device loss to nearly zero (<.5%)** with Imprivata Mobile Access Management.

Time is money (and morale)

It takes **13 minutes** on average to assign a device at shift start, and that friction compounds across every handoff, **contributing to clinician burnout**.

Real-world Imprivata impact:
“Checking out a shared device couldn’t be simpler. You just tap your badge, pull a phone, log in, and you’re good to go.”

– Chris Paravate, CIO, Northeast Georgia Health System

Bottom line:

Strategy + Imprivata turns shared mobile into a compounding asset. [Download the 2025 Shared Mobile report](#) to see where your mobile ROI is leaking – and how to fix it.

Imprivata delivers simple and secure access management solutions for healthcare and other mission-critical industries to ensure every second of crucial work is both frictionless and secure. Imprivata’s platform of innovative, interoperable access management and privileged access security solutions enable organizations to fully manage and secure all enterprise and third-party identities to facilitate seamless user access, protect against internal and external security threats, and reduce total cost of ownership.
