

Device Management, Tracking and Single Sign-On for Zebra Devices

Zebra mobile devices help frontline workers manage crucial workflows and capture mission-critical data with powerful digital tools at their fingertips. And now you can manage, track and secure your Zebra devices better than ever with Imprivata Mobile Access Management.

Imprivata Mobile Access Management helps your IT team deliver seamless, personalized and consistent shared-mobile experiences to end users and gives it the tools to easily manage shared devices without compromising privacy or productivity.

Streamlined User Experiences with Device Visibility and Control

Imprivata Mobile Access Management and Zebra work together to deliver a robust, streamlined and secure mobile experience with tools to improve workflows, easily manage devices, and gain visibility into your fleet.

Clear Visibility Into Your Entire Zebra Fleet

Visibility into your entire fleet of Zebra devices, usage and locations—all accessible from the cloud

Barrier-Free Personalized Mobile Experiences on Shared Devices

Fast, secure and easy access to devices and apps with badge-tap authentication for Zebra devices

Increased Mobile Efficiency and User Satisfaction

Improved workflow efficiency, Zebra device adoption, and satisfaction for end users

Reduced Device Losses and Costs

Actionable data with quick access and automated notifications of device location and check-in issues

What Imprivata Mobile Access Management Can Do for Your Zebra Devices

- Provide convenient, user-friendly and personalized experiences on shared devices.
- Integrate single sign-on into your devices while you manage, secure and track them.
- Easily view device state, status, docking location and more.
- Enforce passcodes for each shared device and easily track device assignments.
- Get alerts if a device isn't returned when and where it should be.
- Significantly reduce the number of lost or replaced devices each year.

Benefits for Frontline Workers

- A personalized mobile experience without manual and repetitive logins
- Authentication and personalization powered by trusted digital identity
- Easy and intuitive access to Zebra devices in the best state

Benefits for IT and Mobile Teams

- Simplified device management from virtually anywhere via the cloud
- Clear visibility into devices, assets, usage, connections and locations
- Device tracking and control without sacrificing user privacy or productivity

Benefits for Executive Leaders

- Increased workforce efficiency through optimal mobile experiences
- Better compliance through enhanced security and control for IT
- Significant cost reduction by minimizing the need to replace lost or misplaced devices

Optimized for Zebra Android Devices

Imprivata Mobile Access Management is optimized for the Android operating system and industry-leading Zebra mobile computing devices, allowing organizations to boost their mobile efficiency and productivity while maximizing the life, value, security and utilization of their devices.
