

DATASHEET

# Imprivata + Omnisia Workspace ONE® UEM: Comprehensive shared mobile access

Combining device control with identity assurance for a seamless, secure mobile experience

Imprivata mobile solutions enhance **Workspace ONE® Unified Endpoint Management™ (UEM)** by adding advanced identity workflows, real-time access control, and mobile asset intelligence. Together, they provide a powerful solution for shared device environments across healthcare, logistics, and other mission-critical industries.

## Added value: Imprivata + Omnisia Workspace ONE® UEM

Functional area	Imprivata Mobile Solutions add
Device enrollment	<ul style="list-style-type: none"> <li>Zero-touch iOS provisioning for faster, scalable deployment</li> </ul>
Routine maintenance	<ul style="list-style-type: none"> <li>iOS updates via USB during charging to reduce downtime</li> </ul>
Device and data security	<ul style="list-style-type: none"> <li>Granular MFA (badge &amp; facial auth)</li> <li>Single sign-on (SSO) for legacy/on-prem apps</li> <li>Credential clearing</li> </ul>
Application control	<ul style="list-style-type: none"> <li>User-specific content control based on authenticated identity</li> </ul>
Location and asset intelligence	<ul style="list-style-type: none"> <li>Device home tracking</li> <li>Intelligent charging</li> <li>Automated checkout</li> <li>Misplaced device alerts</li> </ul>
Reporting and insights	<ul style="list-style-type: none"> <li>User access audit trails, authentication logs, usage-level analytics</li> </ul>

## Value for stakeholders

### For frontline workers

- **Tap-and-go access** with badge or facial recognition
- **Convenient SSO** to all apps, including offline and legacy systems
- **Device with highest charge auto-assigned**, ready for work

### For IT and security teams

- Enforce **role-based multifactor authentication and access policies**
- **Track access by user** across devices and shifts
- Perform **iOS updates without pulling devices out of use**

### For clinical and executive leaders

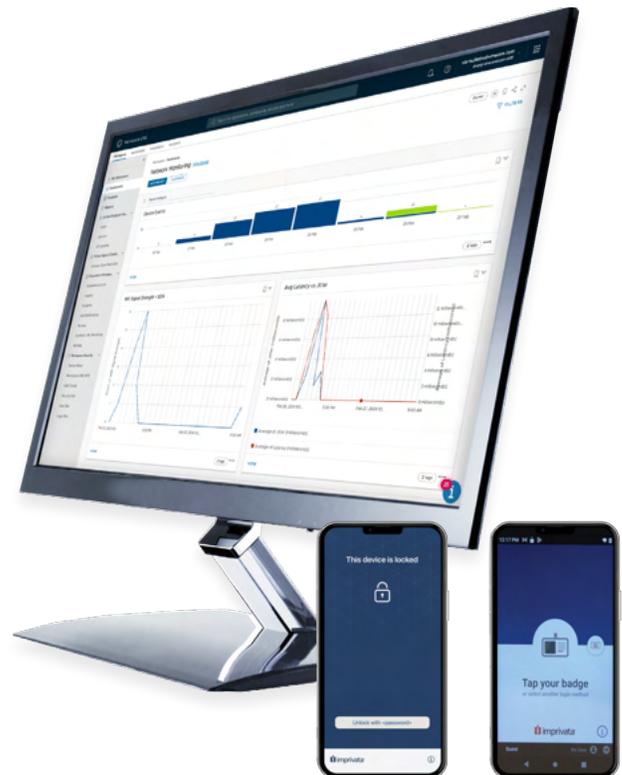

- Mitigate risks via **identity-driven access control**
- Ensure **auditability and compliance** with healthcare standards (e.g., HIPAA)
- Optimize mobile investments with **real usage and assignment metrics**

## The Power of Combining Workspace ONE® UEM with Imprivata

**Workspace ONE® Unified Endpoint Management™ (UEM)** delivers robust capabilities for device lifecycle, policy enforcement, and mobile security — essential for managing and securing enterprise mobility.

**Imprivata complements and extends** this foundation by adding user-centric identity and workflow controls designed for **shared device environments**:

- Adds **context-aware identity** to every session with support for badge tap and facial authentication
- Enables **seamless SSO** across modern, legacy, and even offline applications
- Provides detailed visibility into **user-level device usage**, enabling better compliance and operational insight

UEM secures and manages mobile devices across their lifecycle. Paired with Imprivata mobile solutions, it adds identity-driven access, seamless SSO across all applications, and user-level visibility. Together, they deliver secure, efficient shared device workflows with intelligent assignment, fast user transitions, and robust auditability.
