Imprivata Mobile Device Access: Enhanced integration with Samsung devices

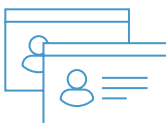

Simple, secure, shared mobile access

Imprivata Mobile Device Access is designed to provide organizations with a secure and efficient solution for managing shared mobile devices. This solution is now seamlessly integrated with **Samsung Galaxy mobile devices**, offering the following key benefits:

Fast, badge-tap access

Quickly and securely access devices using badge tap, minimizing workflow interruptions.

Fast user switch

Instantly clear credentials and authenticate new users via badge tap.

Seamless single sign-on

Eliminate manual logins—users are automatically signed into mobile applications.

Increased security

Auto logouts and complete audit trails help safeguard sensitive data and maintain compliance.

Auditable visibility

Gain full transparency with detailed logs of user-device interactions.

Offline mode

Maintain secure access and SSO capabilities even when offline.

Benefits for different stakeholders

For frontline workers

- **Productivity boost:**
Lightning-fast authentication minimizes idle time.
- **Familiar and intuitive UX:**
Seamless Android interface with SSO improves satisfaction and usability.
- **Reliable in the field:**
Spectralink's rugged, healthcare-optimized designs ensure uptime and durability.

For IT and mobile teams

- **Centralized access management:** Simplifies control over device and application access.
- **Secure by design:** Compatible with enterprise-grade mobile security, supporting compliance needs.
- **A PC-like experience with mobile devices:** Use Samsung DeX for a seamless transition between mobile devices and a desktop experience, no laptop or login delay required.

For executive leaders

- **Cost savings:** Optimized device usage and reduced downtime lower operational costs.
- **ATA-driven decisions:** Access logs offer actionable insights for workforce and device planning.
- **Compliance and risk management:** Full traceability supports HIPAA, GDPR, and other compliance needs.

About Samsung Galaxy mobile devices

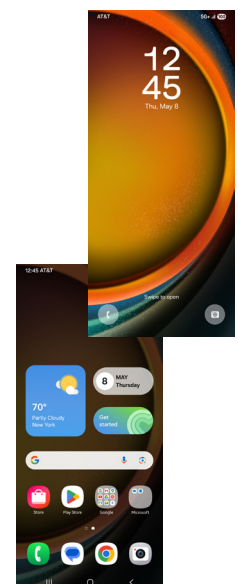

Samsung is a global leader in innovative mobile technology. Their enterprise-ready devices combine sleek designs with powerful performance, tailored to meet the rigorous demands of healthcare, manufacturing, and field operations. With long lifecycle support, Knox security, and robust hardware, Samsung devices are ideal for shared device environments.
